“The ideal Court”

Call for tenders for the enhancement of Corte Grande di Canedole (Mn)

Art. 1 – Announcement

Cerea Banca 1897, a cooperative operating in the area of Verona and Mantua, announces a competition that aims to the enhancement of Corte Grande di Canedole, located in the municipality of Roverbella (Mn).

This “Factory” is a symbolic example of rural court in the Po valley, a real social and organizational model of agricultural work in past ages. The complex is the result of a series of stratifications, incorporations and reductions, which started in the period between the end of the XVI century and the beginning of the XVII century, and ended, with reference to the master building, in the first half of the XIX century. The history of the complex has not been adequately investigated yet, and this Announcement aims to be also an opportunity to further delve into it.

The purpose of the Competition is to enhance the entirety of the complex, considering the possibility to adopt new intended uses, with special reference to new sustainable business models, compatible with the historic and architectonic safeguard of the complex. These proposals must be respectful of the structure and the image of the court, and must aim to resurface its inherent historical, artistic and testimonial values. Preference will be accorded to proposals that aim to preserve the architectural image. Changes can be made: additions will be favoured as opposed to reductions, and must be aimed to the re-functionalisation of the artefacts; reductions (demolitions) are allowed, but will have to be justified in the report attached to the project.

This Announcement is published in the following languages: Italian, English and Russian.

The partners and sponsors of the Competition are specified on the website.

Art. 2 – Administrative office

The administrative office is located in Cerea (VR), at the headquarters of Cerea Banca 1897, in via Paride da Cerea.

Further information must be requested no later than December 31st 2017 via e-mail to the address: contest@culturaldevelopment.it; the answers will be sent by January 31st 2018

Art. 3 – Object of the Competition

Cerea Banca 1897 wants to select projects aimed to the functional and economic valorisation of the complex of Corte Grande di Canedole. Those projects must provide new ideas of use and describe the architectural works necessary for the realisation of the new functions.

The projects must take into account the morphological and environmental characteristics of the landscape and select and highlight its peculiar values. This process of “building on the built” should come from the relation between memory and contemporaneity, in order to foresee the possible future of the court. In summary, the solutions should be functional and formal proposals (innovations or additions), respectful of the image, the landscape and the historic value of the Site.

Art. 4 – Participants

Participation is free, the competition is addressed to professionals, hospitality industry experts, real-estate experts, students, design groups and to anybody who abides by the terms of this Announcement.
